How to use this arrangement

Order: Chorus, v.1, chorus, v.2, chorus, v.3, chorus, v. 4, chorus.

In the main arrangement, the tenor and soprano parts constitute a complete arrangement on their own.

Used for two-part singing, they may also be reversed (T sings S; S sings T) all the time or for variation.

For singing in more parts they may be supplemented by the alto or bass parts or both.

The alternative arrangements may be used by SAT or SSA, transposed down or up respectively if necessary
